MHL ADAPTER - MICRO USB TO VGA

Connect smart phones to displays with VGA input

The V7 MHL adapter connects your MHL™ enabled mobile device such as a smart phone or tablet to a TV or monitor that has a VGA input. It automatically switches the phone from USB data / charging to MHL video mode. The MHL to VGA adapter supports 1920x1080p output resolution and has a 3.5mm audio jack, to deliver sound with your video. This compact, active adapter offers a Micro USB port on the side, for the added benefit of simultaneously charging your connected mobile device.

- Supports uncompressed video up to 1920x1080p
- Optimized for the latest MHL enabled smartphones and tablets
- 3.5 mm Jack for Stereo Audio Output
- Provides device charging when plugged in to the HDMI host device
- Plug and Play, no installation software or drivers required
